SOUTH LOGAN.

Perhaps your readers would like to know something about the outlook in this country.

Farmers have taken advantage of the nice fall. Hogs are killed and stowed away nicely. Corn in the crib, and plowing is about all done. (Death to the cut-worms.) When spring opens, we can go right along with corn-planting.

The question of not raising any tobacco is being agitated to a considerable extent here; it would be a good thing if accepted everywhere, but that will not be done. What has been said already will cause more tobacco to be grown, North of the Ohio river, next year than ever before. Were farmers of the Green river and Clarksville districts to decide not to plant any, it would not lessen the crop much, for it would be planted where tobacco never was grown. Consequently the market would be stocked with a coarse low grade class. I think our salvation is to plant less, cultivate better, and make better tobacco—a good wrapper will always command a good price.

The prospects are now, that we will have a new railroad in the near future, to be built by an English Company. The proposed route is from Cairo to Cumberland Gap via Hopkinsville, Elkhorn, and Franklin. We do not know what route it will take through this county. They propose going by Russellville, provided she gives them \$75,000. A much better way would be to cross the Memphis Branch at Olmstead and from thence direct to Franklin, crossing the O. & N. between Russellville and Adairville, which would cost less than any other route. Russellville is surrounded by a chain of rocky knobs, which would necessitate a cost of at least \$100,000 more than the other way. By Adairville would be going far south, besides, that Red River would be to cross twice, in order to reach Franklin. By running direct from Olmstead to Franklin, we would go through rich lands from one end of Logan county to the other and best route for a road bed in that direction.
